## Alternative Certification Program (ACP)

The Texas A&M University–Texarkana Education Division offers Texas Alternative Teacher Certification Program (ACP) for students who hold a baccalaureate degree. The program starts with online coursework and field-based experiences. After completing coursework, field-based experience, and passing the required TExES certification exams, the student teaching requirement may be fulfilled with a paid internship as teacher of record for one school year (fall/spring or spring/fall) in a Texas public school. The student continues online coursework during the ACP internship and is eligible to apply for certification when all coursework, internship, and testing requirements are met. Texas A&M University-Texarkana is an approved Educator Preparation Program, teacher candidates must be admitted into an approved educator preparation program to meet alternative program (ACP) certification requirements to become a certified educator in Texas.

To be accepted into the Texas Education Agency (TEA) approved Educator Preparation Alternative Certification Program (ACP) an applicant must complete two separate applications:

- Texas A&M University-Texarkana Application (<https://tamut-4162.app451.sites.451.io/>), and
- Educator Preparation Program Application.

For the university application, select the graduate application. For the program, select non-degree seeking with a concentration in Teacher Certification (not eligible for financial aid) or the Master's of Education in Teaching (Seeking Initial Teacher Certification (is eligible for financial aid). A master's degree is not required for certification.
