

# MASTER OF SCIENCE-INSTRUCTIONAL DESIGN AND TECHNOLOGY

---

Are you ready to take the next step in your career and become a leader in the field of Instructional Design and Technology? Texas A&M University-Texarkana's Master of Science in Instructional Design and Technology (IDT) 30 hour program offers a unique opportunity for students to develop the skills needed to design, implement, and evaluate innovative learning experiences across a variety of industries. With a focus on cutting-edge technology and evidence-based instructional strategies, this program prepares graduates to create impactful learning solutions that meet the needs of today's diverse workforce.

As a student at Texas A&M University-Texarkana, you'll benefit from a supportive learning environment, flexible course offerings, and hands-on experiences that give you practical knowledge that can be applied directly to your career. Whether you're looking to enhance your skills as an instructional designer, educational technology specialist, or training and development manager, the IDT program equips you with the tools necessary to drive change and improve educational outcomes. Join a dynamic community of learners and educators, and position yourself for success in this rapidly growing and evolving field.
